NOOR TALK

Yalda Night, or Shab-e Yalda, is a fun and special night for Iranians! It's celebrated on the longest and darkest night of the year, around December 20 or 21. Families and friends come together to eat yummy foods like nuts, pomegranates, and watermelons. They stay up late, sharing stories and poems.

A famous part of Yalda Night is reading poems by an old Persian poet named Hafez. People make a wish, open Hafez's book, and see if the poem tells them something about their wish.

Yalda Night reminds us that even in dark times, there's always hope for brighter days ahead. It's a time to be thankful for our loved ones and look forward to the future.

YALDA NIGH NOOR TALK

Yalda is a historical and beautiful night for Iranians. every year on Yalda night me and my family gather at my grandma's house. We see each other, talk, drink tea and play together. It's a memorable night for me and I think Yalda is ❤️ not just one long night. it's a night full of love Yalda night is just an excuse to be together and .be happy

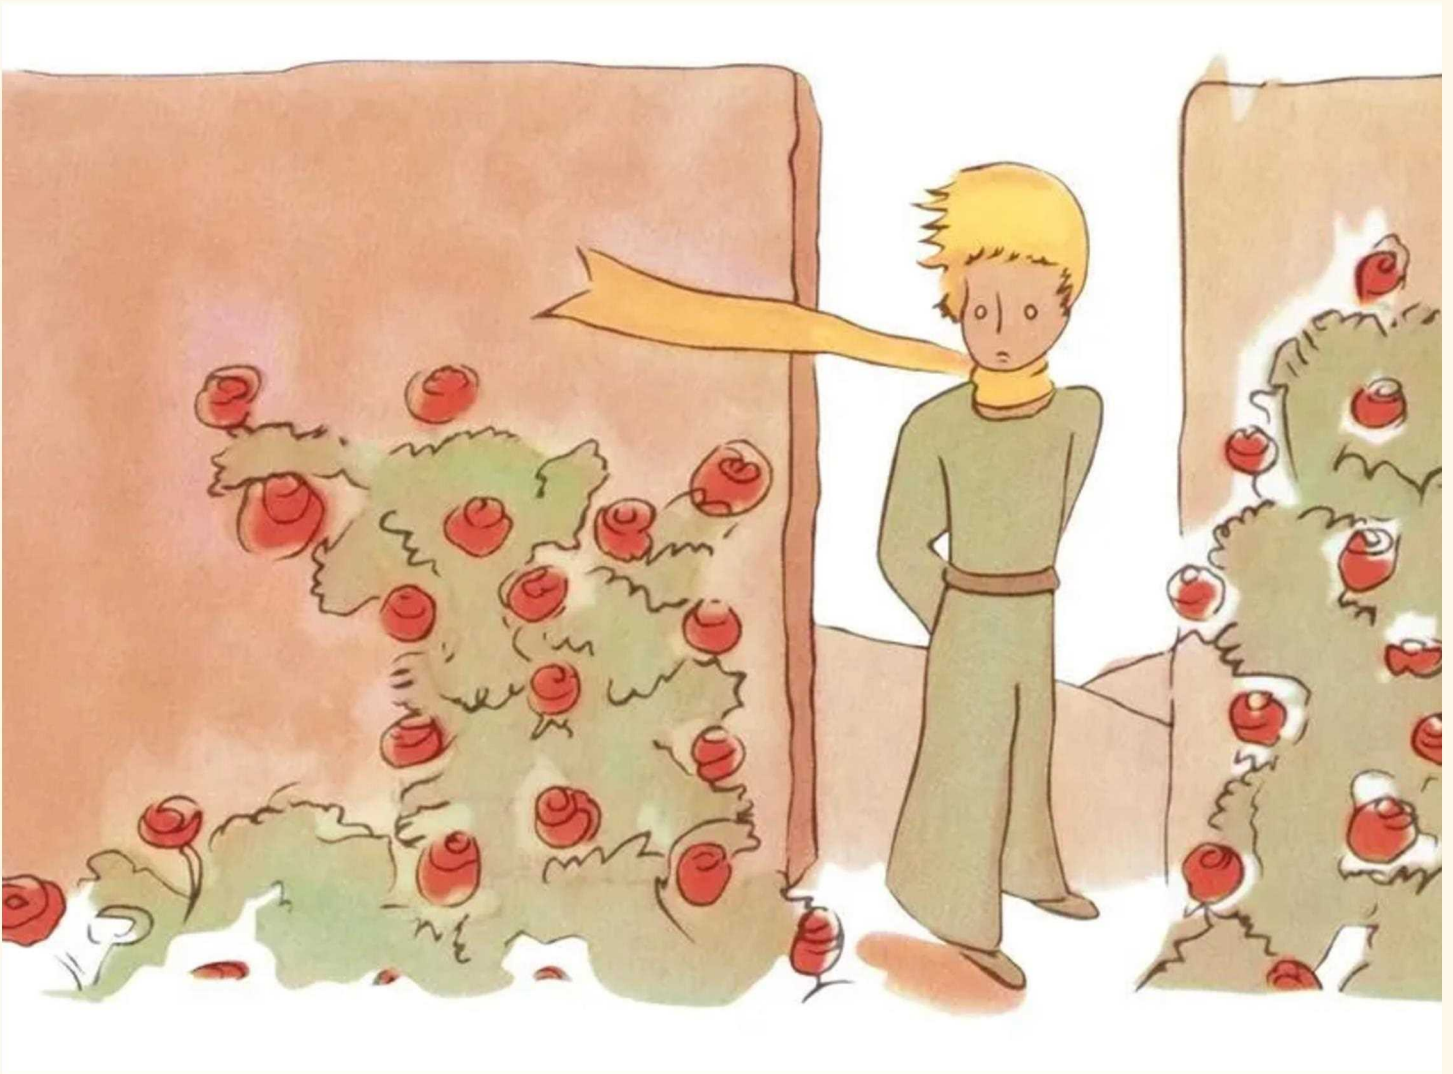

ZAHRA SHEIKH AL-RAEES

In my opinion Yalda in a Night when everyone should be with their family members and friends and spend this night well. But it's interesting to know that this night is only 1 minute longer than the other nights. we gather together and read poems of Hafez. Pomegranates, nuts, watermelon and etc. are some of the thigs we eat on this night .Of course my sister and I and some of the kinds in my skating class put on a show on Yalda night. In my opinion the fact that Yalda is the longest night of the year is an excuse to be together.

My favorite book is “the little prince” (from antoine de saint_Exupery).
Indeed It’s about our lives. about our feelings ,our needs, our babyhood and our wish.
In this book every planetesimal is the symbol of our feelings. Like love, ambition, pride and
affability. Actually little prince is the symbol of affability. A kind boy and the main
character and he wants to be friends with everyone and do them a favor ; even a
dangerous snake and a fox. But he becomes friends whit them. He pays too much
attention to a flower because he is so kind.

Finally he teaches us that “being kind” requires a pure heart.

And most adults forgot their “little prince” but they have it.

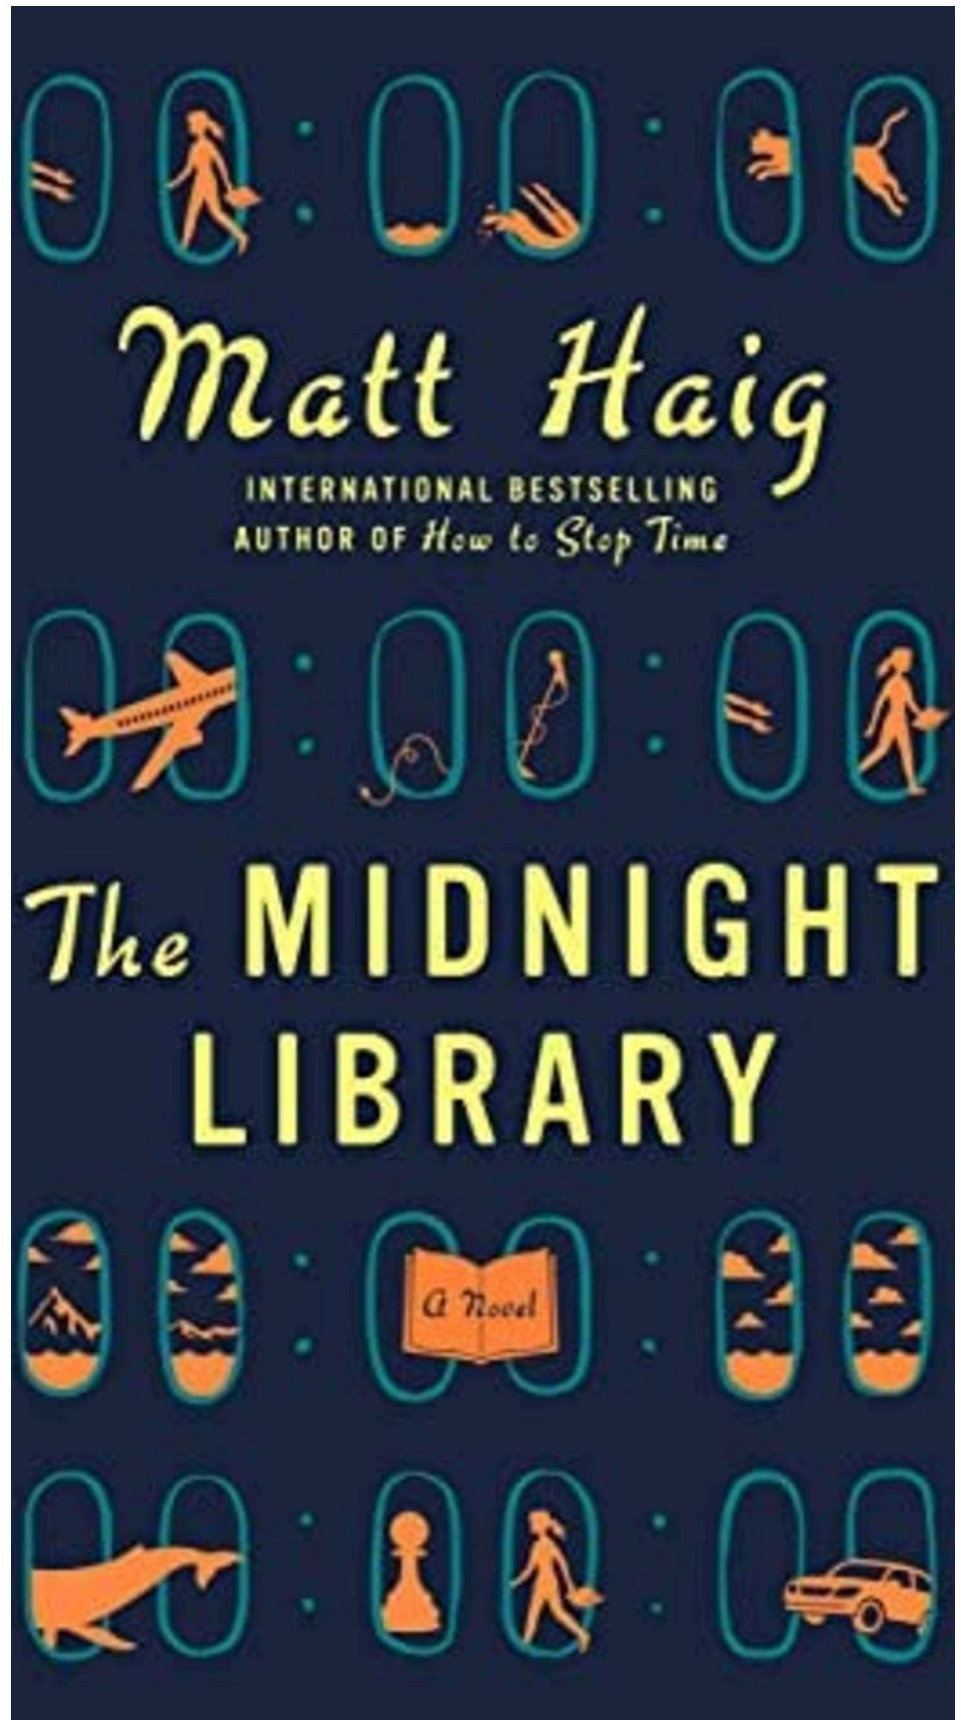

“fox said: only with the eyes of the heart can one see rightly. The truth can’t be seen with
the eyes of the head.”

STUDENT'S FAVORITE BOOKS

My favorite book is 'Diary of a Wimpy Kid' because it has a comic style, and I love books like that. It tells the story of a clumsy kid who faces many challenges, like Christmas Eve, airplanes, restaurants, and Coral Island.

The second book I like is 'Shina's Daughter.' This book tells the memories of (Ghadam Kheir Kanaani Moghadam). It's a beautiful book and very suitable for our age.

I also like many other books such as 'Hidden Lakes,' which is about two girls and boys, and 'The Enchanted Ella,' which is about the fate of an enchanted girl."

STUDENT'S FAVORITE BOOKS

The most interesting novel I have ever read is ten little Niggers in criminal genre. Agatha Christie is the author of this book. It was published in 1976. It was about 10 murders in a house in an island. When I was reading this book I had no idea about the person who killed everyone. In chapter six I thought I knew who the murder was. But at the last chapter of the book I understood that the murder wasn't the person I had guessed. I love the book because of the ambiguity. I recommend reading this book to all of my friends.

LIFE ON MANGOES

One of my favorite stories is *A Life on Mangoes*, a moving story about family, the power of love, lost friendships, and letting go. *A Life on Mangoes*, by Karen Gatton, tells the story of a girl named Clara who spends her days on a small, picturesque island with an abundance of sweet mangoes, where she grew up, but an accident erases all memories of her past.

And another of my favorite books is *Star Wolf*. It's about a young wolf named Sharpfoot who wants to leave his cave home, hunt big like his parents, and be the leader of the wolf pack. One day, an event throws his life out of whack. A pack of white wolves invades their territory, and he is separated from his family and pack.
